Experience

Software Developer, teamsheet.net

2020 - Present

- Created the teamsheet.net website and mobile app using Angular and Ionic frameworks, gaining knowledge of JavaScript and TypeScript.
- Built a server side application using Socket.IO and Node.js to enable live multiplayer mode.
- Utilised services, modals, custom pipes, forms and deep-linking to achieve project goals.
- Designed for cross-platform usage. Built using VS Code before finalising mobile app releases on Xcode & Android Studio.
- Implemented Google Analytics to measure user engagement, page visits and downloads.

Product Manager, Sportplan

2018 - Present

- Managing the admin, marketing and development of the Sportplan application.
- Leading a product team with an objective to develop new ideas to drive growth.
- Creating and maintaining relationships with content providers.
- Analysing open and click rates of marketing campaigns to fine tune subsequent campaigns.

Advanced Systems Lead, Hawkeye Innovations

2016 - 2018

- Installing & operating goal line technology systems globally.
- Understanding of IT and networking to troubleshoot and solve technical problems.
- Analysing performance of software and identifying needs for improvement.
- Leading and delivering on new projects to important clients. Liaising with clients and colleagues in a professional and approachable manner.
- Utilising time management skills to meet strict deadlines in a high pressure environment.

Education

The University of Leeds

2011 – 2014

- BSc (Hons) Sport and Exercise Science: 2.1. Dissertation in biomechanics.

Whitgift School, Croydon

2004 – 2011

- **A-Levels:** Geography: A, Physical Education: A, Mathematics: B.
- **11 GCSEs:** 7 A*/A's.
